What you can learn here, and where

✅ Your Greek Checklist

This page lists what the Greek courses on this site teach, as things you can do. Tick an item when you can do it, and use the last column to find the course and chapter that teaches it. Print the PDF to keep a copy that you can tick with a pen.

HOW TO USE THIS PAGE

The sections follow the order of the courses: **reading and writing Greek** (Greek Alphabet 1 and 2), **everyday situations** (Greek Basic Conversation 1 to 4), and the **grammar track** (Greek Grammar 1 to 4). The level tags in the headings (A1 to B2) are rough guides on the European scale, not promises, and this is not an official standard. Ticks on the website are not saved when you leave the page, so the printable PDF is the way to keep your progress.

4. Not yet on this site

Some things are not taught yet, so this checklist does not claim them.

- There are **no Intermediate or Advanced Greek conversation courses** yet. When they are written, this page will gain new sections.
- Reading long original texts and listening practice are not covered. The Basic courses have short dialogs, and Greek Grammar 4, Chapter 12 has two sample letters.
- Regional dialects, Ancient Greek and the older written style (katharevousa) are not taught.

- Vocabulary is taught inside the chapters; there is no separate word-list or idiom course.

About accuracy

Every chapter ends with a “Not Yet Verified” box that says which facts were checked by a web search and which come from general knowledge. No chapter was checked against a dictionary or by a native speaker, and the web searches were often thin. If you plan to rely on a form, check it with a dictionary, a teacher or a native speaker, especially the irregular verbs, the conditionals, the imperative and the passive.

Keep going. Revisit a chapter whenever an item on this list is still unticked. The grammar chapters each have a quick-reference table for a fast check.
